

JPanel

ActionListener

org.panels.Leaderboard

```
classDiagram
    class JPanel
    class ActionListener
    class org_panels_Leaderboard["org.panels.Leaderboard"]
    org_panels_Leaderboard --> JPanel
    org_panels_Leaderboard --> ActionListener
```

The diagram illustrates a class hierarchy. At the top, there are two boxes: 'JPanel' on the left and 'ActionListener' on the right. Below these, centered, is a box labeled 'org.panels.Leaderboard'. Two arrows originate from the bottom of the 'org.panels.Leaderboard' box and point upwards to the bottom of the 'JPanel' and 'ActionListener' boxes, indicating that 'org.panels.Leaderboard' inherits from both 'JPanel' and 'ActionListener'.
